COMMERCIAL MUSIC PRODUCTS

New Global Anthem Song ... plus

Think *novelty songs*. Think new original songs of freedom. Ours is a very unique and fascinating marketing niche. We consider the usual pop music markets as being saturated and untenable. Our commercial music products (songs) are new recordings that reflect a universal growing spirit of liberty felt... right at this moment... by millions and millions of people on all continents all around the globe.

Our legal departments guarantee that the elite group of 300 super star singers we contract with, each officially representing their nation singing our new global anthem, “I SEE MYSLEF IN YOU”, understand and agree that a second freedom-for-humanity song will be offered to the public by each artist. All recording artists will record and release our follow-up freedom song called, “I DREAM”, another new original Rob Sanders freedom song.

Product BRANDING is important to us! We know marketing!! Our Up-With-People virtual live music freedom concerts in addition to our tremendous internet streaming music videos all create and establish what is known as a veritable

“ I SEE MYSLEF IN IN YOU ” WORLD MOVEMENT !!!
